

## GT-1A/S/SS & GT-1A/F/SS DOOR STATION

The GT-1A/S/SS is surface mounting stainless steel audio door station and the GT-1A/F/SS is a flush mounting stainless steel door audio station for use with the GT audio systems.

Manufactured from marine grade '316' stainless steel, it is available in both flush and surface mounted versions.

This door station features loudspeaker, microphone, three illuminated pictograms and synthesis voice and is designed for outdoor use, even in the harshest environments.

The engraving for the call button and logo can be tailored for your own specific needs as can the physical size of the unit.

GT-1A/S/SS

GT-1A/F/SS
