

T5S

Fingerprint & RFID Reader

T5S is an innovative fingerprint card reader which fully integrates fingerprint and RFID technology. The very compact design makes it suitable for installation on door frame. T5S has standard RS485 output to connect with ANVIZ whole access control production to be a dispersed type access control system. T5S can easily update the existing card readers for higher security level of fingerprint and card.

Fast fingerprint scan
in less than 0.5 second

⊕ Feature

- Small in size and compact in design. Can be easily installed on doorframe
- New generation fully sealed, waterproof and dustproof fingerprint sensor.
- RFID , Mifare card module. Compatible with industrial standard
- Communicate with access controller RS485

⊕ Parameter

Item	
Processor	TI Stellaris® 32-Bit High Speed CPU
Sensor	AFOS300 Optical Sensor
Sensor Wake Up Mode	Infrared Auto Wakeup Sensor
Scan Area	22mm*18mm
Resolution	500 DPI
Communication Interface	RS485
Card Reader Module	Optional EM RFID / Mifare Card
Size	145mm*55mm*37mm L*W*H
