LANconnect-S

Description

The LANconnect-S from AXCESS Inc.'s Prism Video line is a dual-input digital video transmitter which allows users to easily add existing cameras to the network. Simply connect two standard CCTV cameras and connect the LANconnect-S to the network. Remote viewing and digital video recording is then facilitated over networks (LAN, WAN or Internet) with virtually any PC.

The LANconnect-S offers interchangeable, on-board CODECs for multiple transmission/compression methods. This unique feature allows users to add the latest technology without having to modify or purchase additional hardware.

Features

Dual Input - easily connect two standard CCTV cameras via BNC connectors

Interchangeable CODEC - multiple types of video and audio CODECs can be run - allowing for the addition of the latest transmission technology without hardware modification

TCP/IP Addressable - addressable by multiple simultaneous receivers (via viewer software or handheld device)

Motion Detection - three distinct regions of interest provide motion-triggered video

Video		Alarm I/O	
Compression	ITU-T H.263, JPEG	**Inputs**	2 dry contact inputs (12VDC supplied)
Performance	2 simultaneous channels: H.263 CIF at 100kbps/10fps CIF 384kbps/15fps CIF JPEG @ 15fps	**Outputs**	2 Form A output contacts,
			24VAC/30VDC/75 mA max per output
			Two 4-pin header-type connectors, one I/O per pair
		Mechanical	
Image Sizes	CIF and QCIF	**Size**	2" x 5.3" x 8"
Input	2 NTSC/PAL channels (BNC connector)	**Weight**	1 lbs. 14 oz.
Audio		**Environmental**	
Compression	2 simultaneous channels G.729A or G.711	**Operating Temperature**	41° to 113°F (5° to 45°C)
Performance	8-48khz sample rate, 16-bit sample	**Storage Temperature**	-40° to 158°F (-40° to 70°C)
Input	2 Line inputs (RCA)	**Operational Humidity**	5% to 95% (non-condensing)
Output	2 Line outputs (RCA)	**Storage Humidity**	95% at 158°F (70°C)
Serial Ports			
RS232	Utility port up to 19.2 kb (DB9 connector)		
RS485	PTZ control up to 19.2kb (RJ11 connector)
