LTC 9210, 9212, 9213, 9223 Indoor/ Outdoor Mounting Equipment

▸ **Maximum load – 9kg (20lb)**

▸ **Attractive Appearance**

▸ **Versatile Design**

▸ **Adjustable Mount Heads**

▸ **Lightweight**

▸ **Corrosion-Resistant Finish**

This series of indoor/outdoor mounting equipment is designed for fixed camera or camera housing installations up to a rated load of 9kg (20lb). All models are made of lightweight aluminum, and feature welded construction, providing an extremely rigid camera mount. All mounts come fully assembled.

The LTC 9210/00 is a 200mm (8-inch) column mount, constructed of 38mm (1.5-inch) OD aluminum tubing with a welded surface mounting flange. An adjustable head is included for mounting a camera or housing. The adjustable head employs hex head screws and friction washers. The top mounting plate includes three (3) mounting holes for easy installation.
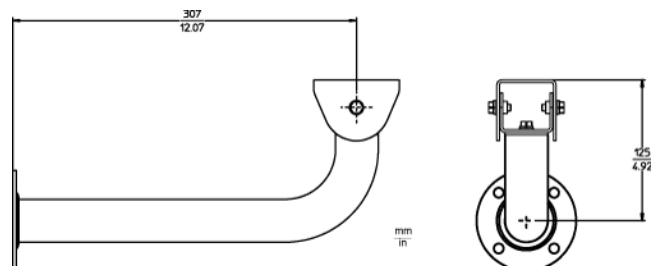

The LTC 9223/00 column mount is similar to the LTC 9210/00, but with a height of 610mm (24-inch). The LTC 9212/00 is a 300mm (12-inch) wall mount constructed of 38mm (1.5-inch) OD aluminum tubing, with a welded surface mounting flange. This unit includes an adjustable head, mounted on a 90 degree angle bend, to permit mounting of a camera or housing. The adjustable head employs hex head screws, friction washers, and three (3) mounting holes for easy installation.

The LTC 9213/01 is a pole mount adaptor bracket, which facilitates mounting of the LTC 9212/00 mount and LTC 9215 Series Feed-through mounts, to a 3 to 15-inch diameter pole. Stainless steel straps are included for ease of mounting.
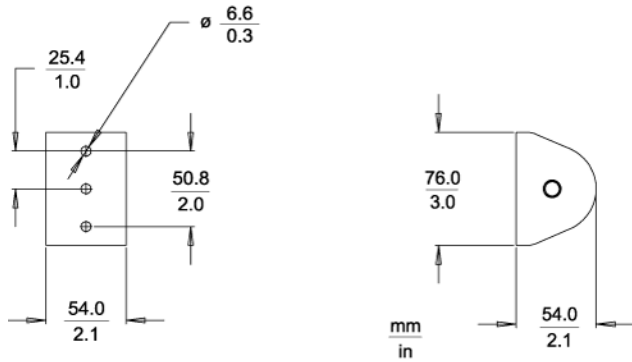

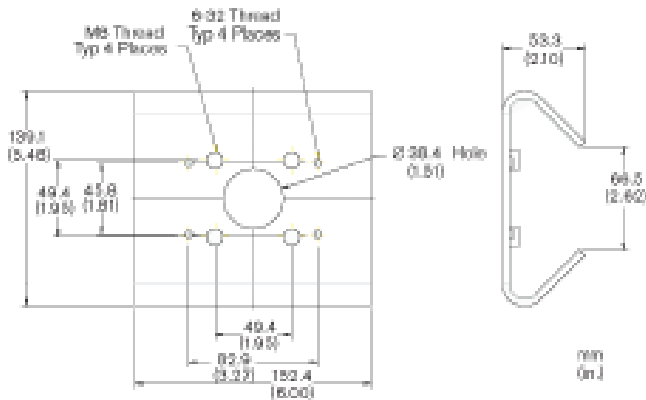

Installation/Configuration Notes

LTC 9210/00 Column Mount, 200 mm (8 inch)
LTC 9223/00 Column Mount, 610 mm (24 inch)

LTC 9212/00 Wall Mount, 300 mm (12 inch)
