BOSCH
Invented for life

- Uniquely coded arm and disarm buttons
- Panic alarm
- LED indicator
- Programmable option buttons

The RF3334 Series Keyfobs includes the RF3334 and the RF3334E. The RF3334 transmits at a frequency of 304.00 MHz while the RF3334E transmits at 433.42 MHz. Both models are wireless and have four buttons. Each model allows you to arm and disarm the security system or send a panic alarm. Programmed with a unique code, each model works exclusively with your compatible security system. Two option buttons are user-defined to perform additional functions.

Functions

Panic Alarm
The RF3334 Series can send a panic code to your monitoring company if your security system is programmed to do so. Press both the lock and unlock buttons simultaneously for two seconds to send a panic alarm.

LED Indicator
The LED flashes to indicate a signal was sent to your security system.

Programmable Option Buttons
The RF3334 Series can be programmed to control additional devices in your protected area. Two option buttons are available. Possible programming choices include turning on lights or opening the garage door.
