KPT-39(N)-BLE
Smart Bluetooth Remote Keypad

Easy and Secure Access On-the-go
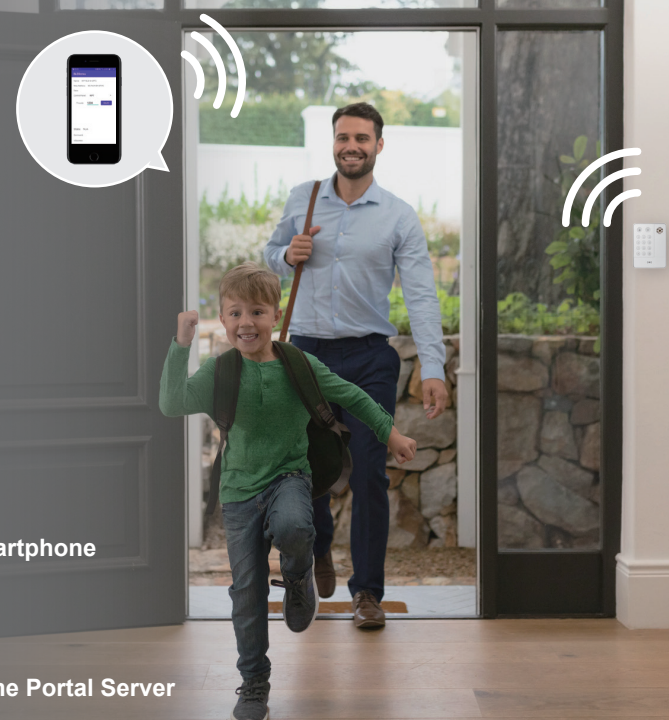

NFC tag

RFID key fob

- **Bluetooth capability to easily disarm the security system via smartphone**
- **Built-in siren for audio notification**
- **Integrate RFID key fobs or NFC tags**
- **Remotely manage the Tag or RFID from the control panel or Home Portal Server**

KPT-39(N)-BLE is a next generation smart bluetooth keypad with easy-to-use bluetooth feature, which allows users to conveniently disarm the security system even with their hands full. Without having to access the App or manually entering the keypad's pin codes, users can disarm the system via Bluetooth simply by approaching the system with their smartphones.

Inheriting the functions and benefits from the previous generation of product, KPT-39(N)-BLE offers users an easy-to-program solution to easily arm, disarm, and home arm their security system. For enhanced flexibility and convenience, KPT-39(N)-BLE series can integrate with RFID key fobs or Near Field Communication (NFC) tags for secure quick access without needing to enter pin codes manually. KPT-39(N)-BLE is also equipped with a built-in loud siren for immediate audio notification.

To provide additional peace of mind and safety, KPT-39(N)-BLE series features dual key function that can activate panic, fire, or medical emergency alarm at the touch of a button. Wireless KPT-39(N)-BLE keypad can be wall-mounted at the most convenient and the easily accessible location in users' homes, giving users an extra sense of security.

Features

- Bluetooth to disarm the security system via smartphone
- Loud built-in siren for audio notification
- Enable arming and disarming with proximity key fobs or NFC tags
- Capability to remotely manage the Tag or key fobs from the control panel or Home Portal Server
