Mobile Pro I Kit

One push can be life-saving

- **Smart Care Alarm System for at home and on-the-go**
- **Two-way hands-free communications**
- **Voice Prompt**
- **Large Help button with LED backlight**
- **Integrate up to 5 emergency pendants & wrist transmitters**
- **Built-in backup battery**

The Mobile Pro I is an enhanced smart care system, combining a medical alarm panel and a 3G/4G PERS locator, that goes beyond typical emergency response products by integrating safety home monitoring, telecare capabilities, and GPS location tracking all-in-one, providing protection for seniors at home, in the yard, or on the go.

The Mobile Pro Base, the medical alarm panel, further advances the Mobile Lite, 3G/4G PERS locator, by further improving voice quality and extending sound range. Mobile Pro Base features an easily accessible Help Button with LED backlight, so it can't be missed even in the dark. Two way hands-free voice communications functionality allows personnel at Central Monitoring station to easily listen-in and speak to user, and with ten selectable volume level settings. The Mobile Pro Base can also connect up to five emergency pendants and wrist transmitters, allowing users

to active the alarm even when away from the Base. When it comes to being safe, there is no room for error.

The Mobile Pro Base is combined with the Mobile Lite, 3G/4G PERS locator, to provide protection for seniors when they are outdoors. The lightweight and portable Mobile Lite also has raised guidance buttons for easy access to open two-way voice communications. Leveraging industry certified A-GPS technology, Mobile Lite provides GPS location positioning and scream function, expediting the assistance deployment process during an emergency. The positional information can be accessed by approved friends and family on the Climax Home Portal Server's map service and Climax's "My GPS Alert" smartphone app, providing more peace of mind.

Features

- Smart Care Alarm system for indoors and on-the-go
- Built-in high sensitivity microphone & powerful 3W speaker
- Voice Prompt
- Two-way hands-free communications feature
