

VCP-DECT Voice Extender

Comprehensive Protection at Home

- Voice Extender via DECT network
- Excellent Two-Way Voice Quality
- Long Range

VCP-DECT is a Voice Extender that enables users to summon emergency help with a single button press. VCP-DECT provides high-clarity, hands-free, two-way communication for making outgoing voice calls, and receiving incoming calls to summon help. It is suitable for senior and medical care, multi-storied homes, and larger premises.

Having multiple VCP-DECT placed at strategic locations throughout the home can safeguard seniors in the event of an emergency. When an emergency happens, senior users can simply use the nearest VCP-DECT to summon help. It has a powerful speaker and microphone built-in and can be easily mounted or placed anywhere in the premises. Knowing that senior users can quickly and easily speak with a CMS operator from anywhere in the home provides an extra layer of protection and peace of mind.
