

Durable • Weather-Resistant • Cast Stainless Steel

Choice of finishes: Brushed Stainless Steel, Black Matte, Stainless Steel Matte

MULTI-MAG DESIGNER READERS EXCEED THE HIGHEST SPECIFICATION EVER SEEN IN MAGSTRIPE TECHNOLOGY

The cast stainless steel housing provides strength and durability in the harshest environments, and is protected even against serious vandalism.

The electronics of the Multi-Mag reader provide an extremely reliable capability combined with industry standard outputs. The read head is designed for extended service, with a head life of over one million card reads. The Multi-Mag reader is supplied with an 8-foot length of shielded cable. A specially designed internal driver extends the distance from the reader to the controller up to 1000 feet.

Unique finishes for enhanced durability and pleasing aesthetics.

For those applications where style and ruggedness are essential, the Multi-Mag magstripe reader exceeds the highest specifications, combined with security and quality. The all stainless steel casting has been specially coated, ensuring a long-lasting finishes for indoor and outdoor applications alike.

CAST STAINLESS STEEL MAGNETIC STRIPE READERS

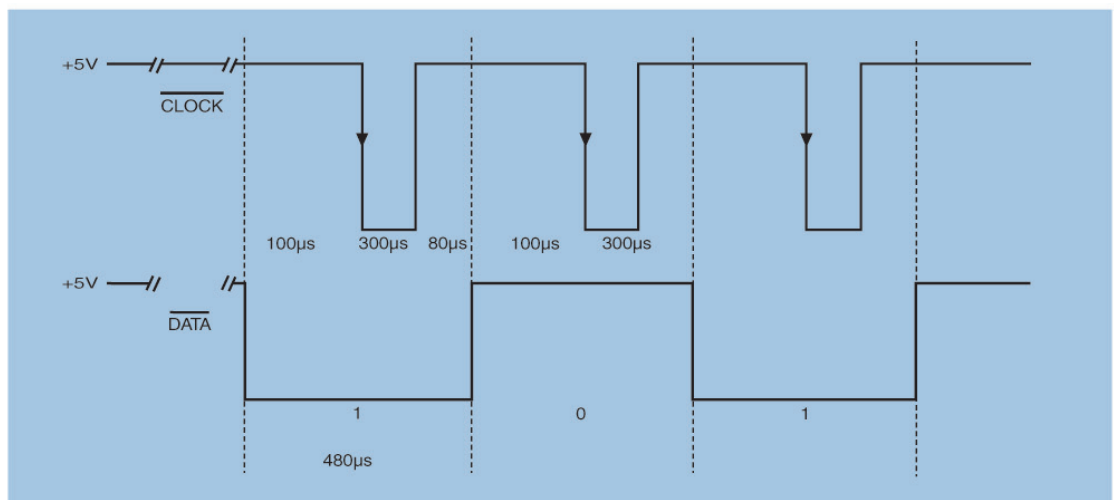

Multi-Mag[®]

FEATURES

- Cast stainless steel.
- All electronics are totally encapsulated in a hard epoxy resin.
- Stainless steel mounting plate with secure hardware.
- 3 Decorator finishes: Brushed Stainless Steel, Black Matte or Stainless Steel Matte. Other finishes available upon request.
- Tricolor LED indicator: red, amber, green.
- Cold weather option available.
- Fits on a narrow mullion door frame.

SPECIFICATIONS

- 5 Volt operation: +/- 10%
- LED Drive: Direct 5 Volts
- Outputs: TTL (others available upon request)
- Cable: 8 feet of shielded cable attached
- Distance: Maximum 1,000 ft, cable length (specially designated internal driver built in)
- Dimensions: 4.40" L x 1.65" W x 1.41" H
- Weather-resistant 0° to 150° F
- Card speed: 125 to 380 cm per second
- Track: Track 2 ISO standard tracks (tracks 1 and 3 available)
- Oersted: Hi-co (4000) and lo-co (300)
