Cware Open Management Platform
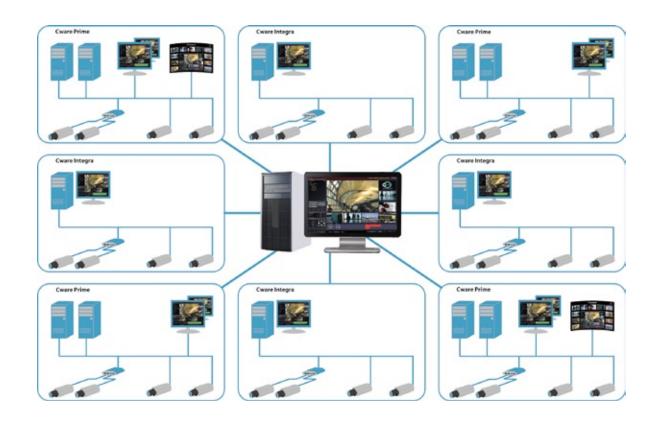

Multi System Control Center

Controlware's Multi System Control Center (MSCC) enables remote command and control of multiple Cware systems simultaneously delivering unrivalled scalability.

The MSCC features a revolutionary user interface with intuitive, user-friendly video management tools. This unique module dramatically improves centralized video management of enterprise level multi-site applications, thus making monitoring and surveillance of complex security sites, easier and more efficient than ever before.

The MSCC enables simultaneous control of virtually endless independent sites from remote locations while transparently integrating distributed systems. This results in significant reductions in costs related to video surveillance personnel.

Features

- ▸ Simultaneous remote viewing of unlimited managed sites
- ▸ Remote monitoring of all video management modules
- ▸ Comprehensive video management including logical channel grouping, alarm notifications, recording and playback of many independent sites
- ▸ Multi-site recording playback and search time, date, and alarm triggered events
- ▸ Intuitive navigation of multiple sites from a single workstation, including live target tracking and multi layer 2.5D Live Video maps and PTZ control
- ▸ Video wall support – virtual matrix

Cware Open Management Platform

Technical Specifications

General
▸ Simultaneous remote viewing of unlimited number of Cware managed sites
▸ User selectable individual connection speed setting per remote site

Video
▸ Up to 4CIF@30FPS and up to 15 Mbps per channel
▸ Remote site transcoding engine control for low bandwidth connection

Export
▸ AVI – To be played with any Windows Media Player, with no software installation as a prerequisite
▸ Native – Original recorded stream to be played with a standalone player application with authenticity verification

Audio
▸ Full / Half Duplex

Recording and Playback
▸ Instant playback from remote site of up to 10 minutes
▸ Synchronized / unsynchronized playback of all deployed channels
▸ Normal, x2, x4, x8, x16, frame by frame forward and reverse playback
▸ Search by channel, time, date, motion and events

Display
▸ User selectable system predefined split screen modes:
  - 4:3 - 1, 2x2, 3x3, 4x4, 1+7, 2+8
  - 16:9 - 1, 3x2, 4x3, 5x4, 1+11, 3+18
▸ Custom layouts - players, graphics, text, controls etc
▸ Display presets for system and custom split screens with assigned channels
▸ Auto-hide overlay of capture and recording control
▸ Time & date overlay with on/off and position control
▸ Multi monitor support
  - Control Center – Unlimited number of detached layouts, typically up to 4 monitors per workstation
  - Video Wall Support - Up to 4 monitors per Video Wall PC, unlimited number of Video Wall PCs

User Management
▸ User database with login, password and contact details
▸ User profiles with configurable permissions and access settings
▸ Dual login option for selected features

Navigation Tools
▸ Logical grouping channel tree with filtered views
▸ 2.5D Live Video Zoom Maps
▸ Image Content Navigation
