

DATACARD® ID WORKS® BASIC IDENTIFICATION SOFTWARE

Designed for traditional ID programs, ID Works Basic identification software provides everything you need to ensure easy, efficient program management.

Essential tools for card design, production and management

Datacard® ID Works® Basic identification software includes the core tools that ID programs need to manage card design and production efficiently, as well as excellent flexibility for creating cards and handling images. It also allows you to easily upgrade to Datacard® ID Works® Standard or Enterprise software as your needs change.

Proven capabilities, effective performance

- **Powerful ID program management.** This software package enables you to create card and report designs, as well as manage image capture and printing. It introduces basic security features, such as a ghost option for the photo field. You can import and export data from Microsoft® Access databases, encode magnetic stripes and print bar codes. You can also create your own layout, field labels, color and graphics in production forms.
- **Flexible integration.** The application leverages all the features of Datacard® SP Plus Series card printers and integrates seamlessly with many other printer brands. It supports Datacard® Tru™ Photo solutions, as well as TWAIN and Video for Windows image capture devices.
- **Intuitive interface.** The user-friendly interface features point-and-click navigation to simplify card design and production. Customizable sample templates and online documentation quickly turn new users into experts.

Standard Features

- Flexible card, report and production form design
 - User-defined card size (CR50, CR80, Custom)
 - Auto-create production form
 - Shape drawing support
 - Font sizing and colors
 - Multiple field selection, alignment and formatting
 - Zoom in/out card design window
 - Zoom in/out report design window
- Field types
 - Variable text (with masking)
 - Static text (with word wrap option)
 - Photo (with border, ghost or transparent background option)
 - Date (with time option)
 - Bar code (21 types)
 - Magnetic stripe
 - Static and variable graphic (with ghost and transparent color options)
 - Non-printable area
 - List
 - Composite
 - Print count
 - Auto sequence
- Image management
 - In-production image import and export (.BMP, .EPS, .JPG, .PCT, .PCX, .PNG, .PSD, .TGA, .TIF, .WMF)
 - Image storage as BLOBs or files
 - Multiple images per record
 - View photos in table view
- Database management
 - Auto-create Microsoft® Access 2000 database
 - Quick, advanced and stored searches

- Database support
 - Microsoft Access 2000 and later
- Help features
 - Online user's guide
 - Online help
 - Help desk support
- Security features
 - USB hardware key
 - Application- or activity-level user security
 - Login timeout feature
 - Restrict project access by user
 - Secure user audit trail
- Compatible with the extensive line of Datacard® card printers
- Image capture options
 - File input
 - Tru Photo solutions
 - TWAIN capture devices
 - Video for Windows capture devices

- Resolution
 - 800 x 600 screen resolution (1024 x 768 recommended)
- Peripherals
 - CD-ROM drive
 - Available USB port

System Requirements

- Operating system
 - Microsoft® Windows® 2000, XP or Windows Vista®
 - Web browser
 - Internet Explorer v6.0 or later
- Memory
 - 512 MB RAM
 - 100 MB hard disk space for application (not including database)
- Color
 - 16-bit color (65,536 colors)
 - (Cameras may require higher color)
