

EAGLE EYE

# Camera Direct Complete

Eagle Eye Networks affordable direct-to-cloud surveillance solution

## Uses for Camera Direct Complete

Businesses looking for cost-effective surveillance with 1-4 cameras per location.

Remote, unstaffed locations, or a location where space is limited.

Businesses where CapEx concerns or hardware costs send them looking for inexpensive alternatives.

An Eagle Eye user that needs to add a single camera to an existing system.

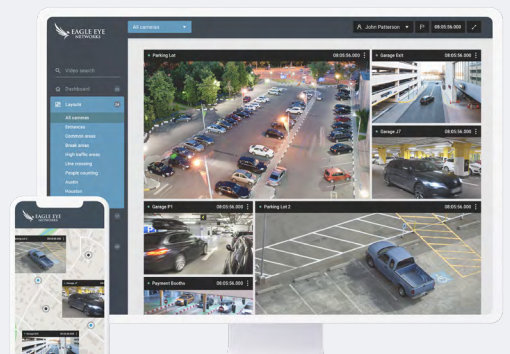

Fast installations due to reduced on-site equipment.

## Direct-to-cloud video surveillance

This simple solution is ideal for businesses with multiple locations requiring only a few cameras at each location where the upfront investment is a major factor in the decision. Easily add Camera Direct Complete supported cameras to the Eagle Eye Cloud VMS without the need for a Bridge or any additional hardware. Leverage the benefits of the award-winning Eagle Eye Cloud VMS including:

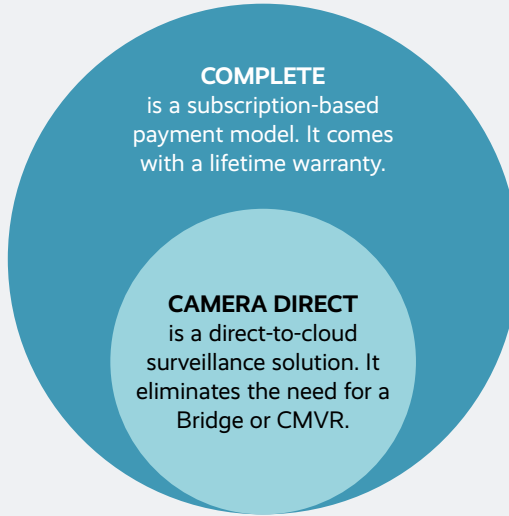

- **Secure cloud storage**  
Videos are encrypted and redundantly stored in the cloud for secure and easy access.
- **Automatic updates**  
True Cloud systems like Eagle Eye Networks receive continuous updates via the cloud connection.
- **Remote access**  
Camera Direct provides a live full resolution stream of live and recorded video for instant access from anywhere in the world.
- **Cloud management**  
Update the resolution of your cameras, retention, and more at any time.
- **Artificial intelligence**  
Quickly find person or vehicle events with cloud-based AI features like Smart Video Search and Smart Layouts.
- **Motion detection**  
Configure and get motion detection events on live and recorded video.
- **Notifications**  
Get notifications if motion is detected or a camera goes offline.

# Camera Direct Complete

Camera Direct Complete is a subscription-based pricing model where the customer pays for the cameras as part of their VMS subscription – there is no need to purchase any equipment.

The subscription camera pricing, in addition to the elimination of the Bridge, reduces the upfront investment while providing a number of other benefits.
