### DESCRIPTION

Wi-box is a WiFi device with VDS technology that allows for forwarding the calls that are received on the VDS monitor or telephone in the house, to the smartphone. You only need to download and install the Wibox app by Fermax, available for free in Play Store and App Store and pair it with the Wi-Box module.

It is installed in parallel to the VDS terminal, close to it. It behaves as another VDS terminal and by means of the Wi-box app it is possible to remotely enjoy the same features available in the terminal of the house and many more!. Connectivity for all from anywhere.

### TECHNICAL SPECIFICATIONS

Product dimensions (width x height x depth) mm: 80 x 80 x 20 mm. // 3,14 x 3,14 x 0,78 inch

Connectivity: Wifi (2,4 Ghz)

Date and time: Autonomy 24h without power

Voltage: 18 Vdc (directly powered from the VDS terminal)

Maximum consumption: 2.7 W

Standby consumption (paired and connected): 1.8 W

Working temperature (°C); Humidity: [-5°C, +40°C]; [0%, 90%]

Product weight (kg): 0.098

Line adaptor: Yes. A 75 Ohm resistor is included to adjust the video impedance (V, M)

Connections: Cable with molex connector: +, L, -, V, M, Ct, F1

**Weight:** 0,0968 kg

**Size of product when packed:** 2,8x11,5x9 cm

**EAN 13:** 8424299032665
