

Exit Devices

Gallagher provides robust and intuitive Touch to Exit and Emergency Exit egress devices. These devices can be integrated with Gallagher Command Centre or another control system to provide a complete and controlled exit solution.

Touch to Exit Device

Features and benefits

- Light touch activation
- Fits standard electrical flush box
- Vandal-resistant and easy to clean
- Output for real-time status monitoring
- Self-calibrating switch
- No moving parts
- Sounder to provide audible confirmation of operation
- Two LED indicators provide visual confirmation for heartbeat (Red) and operated (Green).

Emergency Exit Device

Features and benefits

- Field resettable unit, a reset tool is supplied with every unit
- Fits standard electrical flush box
- No breaking of glass to operate
- Two outputs; one set to break lock power and one set for real-time status monitoring
- Ancillary input for remote operation of sounder
- Minimal moving parts.

Unmonitored Emergency Exit Cover Monitored Emergency Exit Cover

This cover is available in both a monitored and unmonitored configuration, the key features are:

- Designed to suit the Emergency Exit Device for the purpose of deterring unintended or malicious activation in public areas
- Two potential outputs; one for local audible indication, and one for status monitoring (C861203 only)
- The cover is secured behind the Emergency Exit Device to prevent removal
- The cover is designed to latch closed so as to make the operation of it a deliberate action
- Durable polycarbonate cover is easily cleaned, and weather resistant for external use
- Minimal moving parts
- Text and graphics will not deteriorate over time
