550 TVL Impact Resistant WDR H.264 Colour IP Dome Camera

ZN-DWNT350VPE is a part of the H.264 IP Fixed Dome range based on GANZ IP's class leading multi-encoding platform offering internal/external true Day/Night operation with a removable IR Cut filter and Wide Dynamic Range. The camera offers dual streaming functionality where two independent streams can be derived with different compression algorithms, bitrates, frame rates and resolutions. The unit also supports MPEG4 and MJPEG compression as standard.

ZN-DWNT350VPE is designed to be ceiling (surface/flush) or wall mounted and uses a Sony 1/3" 550TVL Super HAD CCD sensor. ZN-DWNT350VPE is a vandal resistant design rated to IP67 standards made of die cast aluminium and powder coated to prevent it from oxidation and scratching. The unit boasts of on-board basic Video Content Analysis, Bi-directional audio, onboard micro-SD and digital input/output as standard. Onboard advanced Video Content Analysis filters are available for this unit as an order option. The built-in Power-over-Ethernet support allows the camera to be powered directly from the network, with just a single CAT5/6 cable, reducing installation/maintenance time and costs.
