

●● PWR-12DC-8-5

8 Camera 12VDC 5Amp Power Supply

The PWR-12DC-8-5 is a CCTV power center engineered to manage remote camera and accessory power requirements. The PWR-12DC-8-5 distribution module is designed with 8 individually fused outputs for powering up to 8 CCTV cameras and accessories. It will provide 12 VDC via distribution to eight fused outputs with a total of 5 Amps continuous supply current. The PWR-12DC-8-5 power center is housed in a premium lockable heavy gauge metal enclosure.

Key Features

- Convenient screw and terminal and fuse access
- Lockable heavy gauge metal enclosure
- Individual LED's for each fused output
- Multiple knockouts to accommodate various wiring configurations
- Uses easy to find automotive style fuses

Technical Specifications

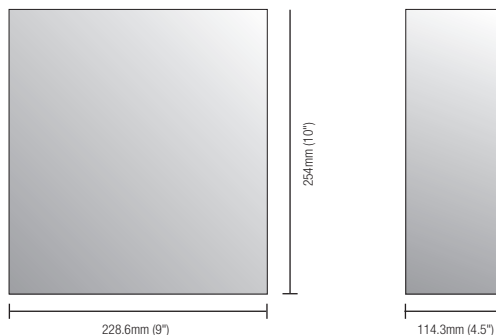

PWR-12DC-8-5

FEATURES

- Convenient screw and terminal and fuse access
- Separation panel between transformers and output access
- Power ON/OFF switch
- Individual LED's for each fused output
- AC power LED indicator
- Double coated polyurethane finish
- Multiple knockouts to accommodate various wiring configurations
- Uses easy to find automotive style fuses
- Includes transformer and spare fuses
- Built-in battery charger
- Lockable heavy gauge metal enclosure

Dimensions

Unit : mm (inch)

SPECIFICATIONS

Input	115VAC 50/60 HZ; 1.0 Amps
Output	3 Amps
5 Amps 100VA supply currents at 70°F	
Fuse	7.5 Amps
Eight 12VDC individually fused outputs	
Transformer	110/28VAC, 100VA
Enclosure Dimensions	254 x 228.6 x 114.3mm (10" x 9" x 4.5")
