

C2P Integration with Hanwha WAVE VMS

Build a unified security monitoring and analysis platform by integrating your third-party systems with Wisenet WAVE VMS.

- All third-party system events are time synchronized with Wisenet WAVE video archives.
- Generate reports and perform system audits using built-in tools.
- Create user-defined rules to alert operators of critical events in real-time.
- Powerful search tools allow users to find events of interest within seconds.
