

Wiegand SensorCard II™

Wiegand

Multi-Technology Card • 10

ACCESS security.

The SensorCard II™ Multiple Technology Access Card combines HID's proprietary Wiegand technology, magnetic stripe technology and photo identification on a single card. The SensorCard II provides a solution for companies desiring to use one card incorporating Wiegand, magnetic stripe and photo identification technologies for multiple applications.

The SensorCard II multiple technology card meets ISO standards for thickness so it can be used with all direct image printers and magnetic stripe readers.

The SensorCard II multiple technology card is another example of HID's long-term commitment to responding to the needs of the access control marketplace.

Features

Specifications

Proven, reliable technology	The SensorCard II card is used in applications throughout the world, from airport access control to hospitals and major universities where the multiple technologies of Wiegand, magnetic stripe and photo ID are preferred.
Thin	Carry it with your credit cards in your wallet or purse.
