KB - 1000

Secure your home or office with the KB1000 fingerprint door lock. This revolutionary fingerprint lock has three different ways for you to grant access... Fingerprint, PIN Code, or Secure Key. The KB1000 has a single latch mortise providing easy installation, with no need to modify most existing doors. Powered by 4 AA batteries, this lock can be operated for up to a year without changing the batteries. Fingerprint enrolment is quick and easy. 30 users can be enrolled directly on the fingerprint lock at the door.
