

eMerge Essential™

Access Control Made Easy

Affordable, Scalable, Browser-Based Access Control

The eMerge E3-Series represents the next step in the evolution of Linear's access control technologies, delivering faster set-up, enhanced features, and industry-leading scalability that outperforms the competition.

The eMerge Essential™ and Essential Plus™ embedded browser-based network appliances make advanced security technology reliable and affordable for any entry-level access control application. With tens of thousands of access control systems deployed in the field, and backed by decades of experience, Linear continues to deliver unprecedented value and innovation.

These full-featured, self-contained hardware/software access systems are perfect for commercial, industrial, banking, medical, retail, hospitality, and other businesses where users need to secure their facilities, manage access of personnel, create and analyze reports, and monitor the system remotely from any web browser.

The comprehensive wizard is fast and intuitive, saving significant set-up time. Both the Essential and Essential Plus can be seamlessly scaled up, via software keys, to other eMerge E3-Series systems providing increased door and reader capacity, enhanced features, and higher level capabilities. The eMerge E3-Series makes expansion easy.

The eMerge Essential and Essential Plus set new standards of excellence for reliability, ease-of-use, expandability, best-in-class value and lowest cost of ownership.
