

NCR365

3-Megapixel Outdoor IR Bullet Camera

1/3" Lumii sensor, H.264, triple streaming, remote zoom and auto focus, ICR day/night, 30m (98ft) IR, WDR, 3DNR, microSDXC/SDHC card slot, IP67, IK10

The NCR365 is a professional 3-megapixel bullet camera designed for detail-demanding outdoor surveillance, delivering the ultimate image sharpness and view coverage like no others. A true day/night camera, the NCR365 features enhanced sensitivity backed by proprietary Lumii™ Low Light Technology, IR night vision and 3DNR to provide superior image clarity in low light conditions. The built-in heater and the IP67-rated enclosure ensure the camera is suited for harsh environments. The featured motorized zoom with auto focus, as well as the 3-axis cable management bracket and the external lens adjustment, significantly facilitate installation of this versatile camera.

Motorized Lens for Remote Zoom and Auto Focus

The motor-driven zoom functionality enables configuration over the network to achieve the optimized viewing angle of the monitored area. Auto Focus can be also done with just one simple mouse click, simplifying the installation significantly for faster and easier setup.

Easy Installation with 3-axis Cable Management Bracket

The 3-axis cable management bracket provides a robust mounting platform for tidy installation and camera angle adjustments on a 3-axis plane. It also offers a well-rounded protection of the cable from any water, dust or shock damages.

3D Noise Reduction

The 3DNR technology takes traditional DNR a step further, removing digital artifacts and grainy appearance from frame to frame, while maintaining image sharpness at low light settings, which results in more efficient bandwidth utilization and less storage space consumption.

Triple Streaming with Multiple Video Profiles

The camera supports H.264 and MJPEG streams and allows triple streaming simultaneously. Video streams can be further managed in profiles, enabling flexibility for users to designate bandwidth storage, and other video properties as appropriate.

Ultra Wide Dynamic Range

Compared with standard WDR, the new-generation WDR features sophisticated algorithm to further expand its dynamic range of the lighting conditions. It allows the camera capturing greater scene details in high contrast settings or in scenes with extremely bright and dark areas.
