VUgarde2 Anywhere

VUgarde2 Anywhere

Vugarde2 Anywhere is an integral part of the Vugarde2 VMS suite and its sole purpose is to deliver live and recorded video streams in a platform independent format to desktop and mobile devices. VUgarde2 Anywhere automatically resamples and recompresses original video streams for the best bandwidth, quality and bandwidth utilisation and adapts the user interface for optimal performance on mobile devices including smart phones, tablets and laptops.

VUgarde2 Anywhere enables the remote control of fully functional devices from web or mobile clients and it also provides a thin client to eliminate client installations and enabling operation within strict IT policies and reduces bandwidth usage. Vugarde2 Anywhere is platform agnostic providing support for all popular web browsers.

VUgarde2 Anywhere

Resamples and recompresses video depending on connection speed and viewing capabilities	✔

ORDERING INFORMATION

INCLUDED WITH EITHER:

Part Number: 4420-2800
Description: VUgarde2 Express

Part Number: 4420-2801
Description: VUgarde2 PRO

FEATURES & BENEFITS

Support for all popular web browsers
VUgarde2 Anywhere is platform agnostic.

Provides thin client application
Eliminates installation, works within IT policies and reduces bandwidth usage.

Compatible with all leading smart devices
View live and recorded CCTV footage anywhere on almost any smart phone, tablet, PC or Mac.

Touch screen compatible
VUgarde2 Anywhere adapts the operator interface to suit the device being used.

Smart bandwidth control for optimal performance on mobile devices
VUgarde2 Anywhere does not stream more data than a device can display.

Control of PTZ devices from web or mobile clients
Control fully-functional cameras remotely from any device.

VUgarde2 VMS platform:

Simple Licensing System
Buy only what you need.

Modular and flexible platform
VUgarde2 can be tailored to suit any sized project and is flexible enough to expand as desired.

Multiple setup wizards
Reduce installation and commissioning time.

Drag & Drop functionality
Minimal operator training required.

Intuitive Graphical User Interface
Simple to use with a focus on common user needs yet powerful enough to be flexible for the largest installations.

EXgarde access control integration
Allows complete integration with powerful access control software.

Multi-level mapping
Provides full map management and drill down ensuring operators can quickly select the most relevant camera.

Powerful event search
Quickly identifies relevant footage from the archive.
