

# TBS CLOUD SERVICES

TBS – TOUCHLESS BIOMETRIC SYSTEMS  
SWITZERLAND  
[tbs@tbs-biometrics.com](mailto:tbs@tbs-biometrics.com) / [www.tbs-biometrics.com](http://www.tbs-biometrics.com)

# TBS CLOUD SERVICES

With TBS Cloud Services, we will take care of:

- Setup and upkeep of the server
- Installation of the server software including updates and upgrades
- Data storage, data security, and data protection
- Guaranteed availability
- E-mail and telephone support for all questions about the server software

Advantages:

- Outsourced solution for good value – with stable costs you can plan for
- Server and software are always up-to-date
- The highest level of security and availability
- Remote access via any browser-enabled end device

Two Cloud packages are available:

1. BioManager Cloud
2. BioManager Cloud SME – specially designed for small and medium-sized enterprises

## BIO MANAGER CLOUD

### SOLUTION FOR COMPANIES OF ANY SIZE

- The foundation is the TBS BioManager software with user and device administration, enrollment, and logbook
- All TBS software options are included, such as:
  - four enrollment options
  - unlimited zones and schedules
  - integrated video
  - virtual anti-tailgating
  - user actions (e.g. user-defined actions to set off a silent alarm)
  - management of alarm devices

## BIO MANAGER CLOUD SME

### SOLUTION FOR SMALL AND MEDIUM-SIZED ENTERPRISES

- Analysis of time events and reporting functions
- User and device administration
- Enrollment of biometric data on a local device
- Granting of temporary access functions by remote control
- Alarm management (e.g. door alarm)
