

# Application Software

**Product Code: L-SW600**

## Description: Psion Handheld Application

Wavetrend has now developed a software product that can be used in conjunction with the Psion Handheld unit. The Psion handheld unit has been interfaced with the wavetrend L-RX300 reader and is able to scan the wavetrend tags with ease.

This software application is currently sold on a Psion flash disk. The application and its relevant data are stored on this disk. The handheld unit and accessories are available from Psionet and the application (L-SW600) is available directly from Wavetrend.

RS232/TTL

## Features:
